---

**Summary**

Highly skilled software developer with over 7 years of experience specializing in Ruby and Rust. Proficient in designing and implementing scalable web applications, and passionate about writing clean, maintainable, and efficient code. Adept at working in fast-paced environments and collaborating with cross-functional teams to deliver high-quality software solutions.

**Skills**

Programming Languages: Ruby, Rust, JavaScript, Python

Web Technologies: Ruby on Rails, Sinatra, Actix, Rocket, HTML, CSS, React

Databases: PostgreSQL, MySQL, SQLite

Version Control: Git, GitHub, GitLab

Tools & Platforms: Docker, Kubernetes, AWS, Heroku, Jenkins

Testing Frameworks: RSpec, Minitest, ExUnit

Other: Agile/Scrum, CI/CD, TDD/BDD, RESTful API development

**Experience**

Senior Software Developer

Tech Innovators Inc., Code City, CA

January 2020 – Present

Lead the development of a high-traffic web application using Ruby on Rails, resulting in a 30% increase in user engagement.

Implemented Rust-based microservices to optimize performance-critical sections of the application, reducing latency by 40%.

Mentored junior developers on best practices in Ruby and Rust programming, code reviews, and debugging techniques.

Collaborated with product managers and designers to define technical requirements and deliver features on time.

Software Engineer

Code Wizards LLC, Dev Town, CA

June 2016 – December 2019

Developed and maintained web applications using Ruby on Rails and Sinatra, handling both backend and frontend tasks.

Integrated third-party APIs and services to enhance application functionality.

Migrated legacy systems from Ruby to Rust, improving overall system performance and reliability.

Conducted code reviews, wrote unit and integration tests, and automated deployment processes using Jenkins and Docker.

Junior Developer

NextGen Solutions, Start City, CA

July 2014 – May 2016

Assisted in developing web applications using Ruby on Rails, focusing on backend development.

Participated in daily stand-up meetings and sprint planning sessions as part of an Agile team.

Debugged and resolved software defects, ensuring timely resolution of issues.

Wrote comprehensive documentation for codebases and user guides for non-technical stakeholders.

Education

Bachelor of Science in Computer Science

State University, Techville, CA

Graduated: May 2014

Certifications

Certified Ruby Programmer

Rust Programming Certification

AWS Certified Solutions Architect

## Projects

**E-commerce Platform:** Developed a full-featured e-commerce platform using Ruby on Rails, integrated with Stripe for payment processing, and deployed on AWS.

**Real-time Chat Application:** Built a real-time chat application using Rust and WebSockets, ensuring low-latency communication for users.

**API for Mobile App:** Designed and implemented a RESTful API using Ruby on Rails for a mobile application, providing endpoints for user authentication, data retrieval, and updates.
