Profile

I am a software developer focusing on front-end development, mobile applications, and Quality Assurance. With experience in the tech industry, I combine design creativity, mobile development reliability, and software testing rigor to create great user experiences.

Technical Skills:
- Front-End Development: HTML, CSS, JavaScript, React, Vue.Js
- Mobile Development: Flutter, React Native, Android Studio
- Quality Assurance: Selenium, JUnit, Appium, Jira
- UI/IUX Design: Figma, Sketch

"I view software development as an art that combines design beauty, mobile functionality, and Quality reliability. Let's create inspiring apps together!" - GildanNR

Experience

PT Arca International 2023

Full Stack Developer

A content Management System (CMS) is a technological foundation that enables individuals and organizations to create, manage, and deploy digital content efficiently. A CMS is a versatile solution that brings together design a development skills to simplify web sontent management without requiring in-depth technical expertise.
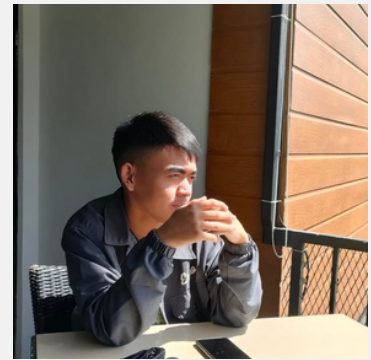

PT Arca International 2023

Quality Assurance

I believe that quality is the key to success, and I ensure that every product meets the highest standards. Rigorous software testing to create a great user experience.

Project

Teng_Go
PT KSN

Mobile Developer

With the increasing complexity of modern work environments, managing employee attendance has become a challenge. "Teng_Go" comes as an advanced solution to simplify and improve attendance management in the work environment. The application was developed with a focus on ease of use, data security, and seamless integration with existing business systems.

Web School
Wikrama

Full-Stack Dev

Collaborated with other teachers and school administrators to design and implement school-wide initiatives to improve student learning

UI Design PPDB
Wikrama

UI/UX Design

On this project, I led an initiative to improve user experience (UI/UX) through innovative design and focus on user needs. The project aimed to create an attractive and easy-to-use interface, optimize user interaction, and improve user retention.
