Professional Summary

Results-driven front-end developer with 6 years of experience in creating responsive and visually appealing web applications. Proficient in HTML, CSS, and JavaScript, with expertise in front-end frameworks such as React and Angular. Skilled in translating design mockups into pixel-perfect user interfaces and optimizing web performance for optimal user experience.

Skills

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Front-end Frameworks/Libraries:** React.js, Angular, Vue.js
- **Styling Libraries:** Bootstrap, Sass, Tailwind CSS
- **Version Control:** Git, GitHub, Bitbucket
- **Responsive Design:** Flexbox, CSS Grid, Media queries
- **Web Performance Optimization:** Code splitting, Lazy loading, Minification
- **UI/UX Design Tools:** Figma, Sketch, Adobe XD
- **Testing/Debugging:** Jest, React Testing Library, Chrome DevTools
- **Build Tools:** Webpack, Gulp
- **API Integration:** RESTful APIs, GraphQL

Professional Experience

Senior Front-end Developer
CodeCraft Solutions, Codeville, CA
June 2018 – Present

- Developed and maintained front-end components for enterprise-level web applications using React.js and Redux, ensuring high code quality and performance.
- Worked closely with UI/UX designers to translate design mockups and wireframes into responsive and user-friendly interfaces.
- Implemented web accessibility best practices to ensure compliance with WCAG standards and improve accessibility for users with disabilities.
- Conducted code reviews and mentored junior developers to foster a culture of collaboration and continuous learning.

Front-end Developer
WebTech Innovations, Codeville, CA
January 2016 – May 2018

- Built and maintained front-end features and UI components for web applications using HTML, CSS, and JavaScript.
- Collaborated with back-end developers to integrate front-end components with server-side APIs and data sources.
- Implemented responsive design principles and cross-browser compatibility fixes to ensure consistent user experience across devices and browsers.
- Optimized web performance by reducing page load times and optimizing resource utilization.

Education

Bachelor of Science in Computer Science
University of California, Codeville, CA
Graduated: May 2015

Certifications

- React Developer Certification (Udacity)
- Front-end Web Developer Nanodegree (Udacity)

Projects

- **Personal Portfolio Website:** Designed and developed a personal portfolio website to showcase projects and skills, built with React.js and styled with Sass.
- **E-commerce Platform:** Contributed to the development of an e-commerce platform using Angular, implementing features such as product listings, shopping cart, and checkout.
- **Task Management App:** Built a task management application with Vue.js, featuring drag-and-drop functionality and real-time updates using WebSocket technology.
